The Room are a rock band from the south east of the UK. The band deliver outstanding live performances and are known for their powerful melodies, big choruses and intriguing lyrics.

Tracks from the bands third studio album "Caught By The Machine" produced by John Mitchell and released on White Star Records in 2019 hit number one on rock stations from Greece to Florida and the album attracted worldwide critical acclaim. The Room were awarded Band and Album of the year from Rock Radio UK as the release year came to a triumphant end.

In the live arena The Room are focussed on exceptional musicianship and entertaining and immersing audiences in the "show". Experienced in festival performances including HRH, Cambridge Rock Festival, A New Day Festival and Summers End, 2019 saw the band's first festival headline and a UK headline tour. Having opened for a wide range of bands such as Wishbone Ash, Inglorious and Focus, the band recognise the need to be flexible in using minimal backline and stage footprint without sacrificing "the show".

The new decade kicked off with the introduction of Chris Teeder on Keyboards amidst the turmoil of the pandemic. Simon Fisher joined the band in 2023 on lead guitar and will add a new element to the bands song writing. The Room are at home on stage and continue to look for new support and festival opportunities.
